

# Denver Regional Solar Map

## Calculator Formula for System Annual Savings Estimate

- DRCOG database/calculation
- Colorado Solar Energy Industries Association membership input
- Result displayed in solar wizard
- National Renewable Energy Laboratory (NREL) sourced calculator

● Xcel Energy Electricity Price

[http://www.xcelenergy.com/Colorado/Company/About\\_Energy\\_and\\_Rates/Energy%20Prices%20\(Rates%20and%20Tariffs\)/Pages/COEnergy\\_Rates.aspx](http://www.xcelenergy.com/Colorado/Company/About_Energy_and_Rates/Energy%20Prices%20(Rates%20and%20Tariffs)/Pages/COEnergy_Rates.aspx)

\*Roof obstruction data (such as mechanical equipment) may not be available for all building footprints.

\*\*Due to varying roof lines and orientations of single-family residential properties an average system size is given. A solar installer can provide more details on the solar opportunity for the specific residence.

\*\*\*Power generation is calculated from NREL's PV Watts calculator.
